

Certificate of Excellence

This certificate of excellence is awarded to: JERZY Franciszek LAMPA – Site Supervisor – NAFTABUDOWA for outstanding performance during the construction of 15 storage tanks with total capacity of 552.500 metric cubes for middle distillates over the period 2007 -2009 at the terminal Oiltanking Stolthaven Antwerp N.V.

Under his supervision and under the management of JPM Ingenieurtechniek, the Naftabudowa construction team succeeded to construct the tanks within the agreed time schedule and in accordance with the Quality Specification supervised by Bureau Veritas Belgium.

Maintaining focus on his key priorities, Jerzy Lampa managed his team to contribute substantially to the project Safety Award of more than 600 days and 600.000 work hours without Lost Time Injury.

His commitment and motivation in participating to the weekly construction meetings is an example of proactive problem solving and inter-discipline teamwork.

As an OISA307 team member Jerzy Lampa is highly appreciated by all his colleagues and the management of Oiltanking Stolthaven Antwerp N.V.

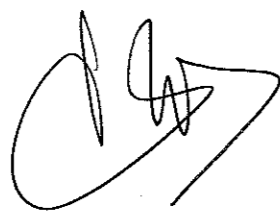

For all this in remembrance of our co-operation we award Jerzy Lampa today August 28 2009, this small statue which represents the key factors for success at a major construction site:

Listening, Watching but most of all Doing The Right Things Right!
