A bid by Polimex-Mostostal worth nearly 73 million PLN selected as the most advantageous

05/12/2010

Today, on 12 May 2010, the Board of Directors of Polimex-Mostostal S.A. has been informed that the Company’s bid in the unlimited tender for the construction of the Innovations and Advanced Technologies Centre of the University of Technology in Lublin has been selected as the most advantageous one by the receiving party, i.e. the University of Technology in Lublin.

Net contract value:

59,812,439.20 PLN (fifty-nine million, eight hundred twelve thousand, four hundred thirty-nine and 20/100)

Gross contract value:

72,971,175.82 PLN (seventy-two million, nine hundred seventy-one thousand, one hundred seventy-five and 82/100)

The construction of the Centre with the usable surface of 13,480.47 m2 will be executed by the end of November 2012.

The contract will be signed after the fulfilment of the conditions required by the Public Procurement Law.
