The past three months of 2018 is a period of hard work and difficult decisions for the Capital Group. I am aware that the Company is still in the process of reorganization and that time is needed in the construction industry for success. I know Polimex Mostostal, we worked together on the project of building the B11 Block in Kozienice and I know that it is a company based on solid foundations and human capital with great potential. I'm sure we are heading in the right direction.
- said Krzysztof Figat, president of the board of „Polimex-Mostostal" SA.

Operating revenues of the Polimex Mostostal Capital Group in the first quarter of 2018 amounted to PLN 348 million and were lower by PLN 197 million compared to the same period in 2017. The downward trend in operating revenues results
