

Rueil-Malmaison, June 15th 2021

To Whom It May Concern,

We hereby confirm that **Naftoremont – Naftobudowa Ltd, Poland** successfully executed fabrication and related services including delivery of vertical cylindrical **Crude and Vacuum Heaters (AD 510-01 & VD 510-02)** for Nynas AB, in Göteborg, Sweden, between February 2020 and November 2020.

The scope of works consisted of:

- Radiant coils SS (TP316), approximately 15 tons – fabrication, NDT and hydrotesting
- Radiant sections, approximately 44,6 tons – fabrication, painting, anchors and lining application (CF board/blanket, LW castable)
- Convection Coils fabrication AS (P11); SS (TP316)
- Convection modules 3 pcs, approximately 100 tons – fabrication, painting, refractory lining application (CF board/blanket, LW castable), modularization
- Stack with damper - prefabrication and refractory lining application for stack
- Natural Gas skids - prefabrication and testing
- Stair tower - fabrication, painting – approximately 22 tons of construction
- Steel structures, i.e. ladders and platforms, supports, miscellaneous steel structure, approximately 25 tons – fabrication, painting
- Gratings delivery
- Trial assembly, templates for site executions
- Testing – NDT, PWHT, pressure test, refractory samples testing
- QA/QC documentation for pressure part including PED & ASME requirements and for steel structure according EN standards
- Workshop documentation delivery for structures and refractory details
- Transport services including oversize transport of above mentioned items from workshop to site in Sweden

Term of Execution:

Prefabrication in Poland Workshop, Jedlicze - from February 2020 till November 2020

Naftoremont – Naftobudowa Ltd has shown professional quality in fabrication and delivery with proactive approach during project execution to meet Client requirements and reach project target.

We would, therefore, recommend Naftoremont – Naftobudowa Ltd as a highly professional and reliable contractor and representative of the Client's interests during execution of the similar works.
